

THE COUNCIL FOR TOBACCO RESEARCH

900 THIRD AVENUE
NEW YORK, N.Y. 10022

HARMON C. McALLISTER, PH.D.
RESEARCH DIRECTOR

June 20, 199

B

Ms. Monica Shea
Office of Grants & Contracts
Dana - Farber Cancer Inst.
44 Benney St., Room J820
Boston, MA 02115

Dear Ms. Shea:

Thank you for your expression of interest in our program of research support. I am pleased to enclose a statement describing policies of The Council and a recent Annual Report that lists grants currently supported. Our application procedure entails a mandatory two-step process. First, a short preliminary inquiry is sent to members of the Executive Committee of our Scientific Advisory Board who evaluate it for scientific merit and for "fit" into The Council's current multidisciplinary biomedical research program. If the Committee's review vote is positive, you will be provided with forms and instructions for completing a full application. In the event you receive an award, The Council will consider up to two annual renewals on the basis of progress reports and materials submitted with renewal applications.

The Council operates two application cycles per year and accepts preliminary inquiries year-round; the date of receipt by CTR determines the cycle in which the proposal is evaluated.

- Fall cycle - any inquiry received between March 16 and September 15 and encouraged by the Executive Committee may be submitted as a full application by November 30.
- Spring cycle - inquiries received between September 16 and March 15 and encouraged by the Committee may be submitted as full applications by May 31:

Cycle	Preliminary Inquiry Arrival at CTR	Deadline for Full Application	Notification Date	Activation Date
Spring	Mar 16 - Sep 15	Nov 30	Early May	Jul 1
Fall	Sep 16 - Mar 15	May 31	Early Oct	Jan 1

The format for the preliminary application is as follows:

1. A three page narrative summary. This should contain a synopsis of the proposed project including relevant background material, its present status and goals, a brief outline of the research and its impact. The summary should end with a sentence indicating the anticipated duration of the project (one, two or three years) and a single figure estimate of the anticipated annual direct costs of the study as proposed. *Please note that the three page limit is absolute; no attachment pages containing photographs, charts or literature citations will be accepted. If you judge such materials are critical for the review of the proposal, they must be accommodated within the three page limitation.*
2. Two page *curricula vitae* and scientific bibliographies of the applicant and principal professional level collaborators (the NIH format is quite acceptable). Again, the page limit is strictly enforced; only two pages per investigator are forwarded to the Committee.
3. One copy each of any two or three publications, abstracts or manuscripts that are closely related to the project for which funding is being sought.

Sincerely,

Harmon McAllister
